AUTHOR INDEX – 1973

Atkins, K. E.
Flammability Comparisons of Glass-Reinforced Unsaturated Polyester Moldings in Various Laboratory-Scale Tests, p. 2

Baron, F. M.
A Corner Fire Test to Simulate Residential Fires, p. 99

Basch, A.
The Infrared Determination of Levoglucosan Formed During the Pyrolysis of Cellulose, p. 92

Biswell, H. H.
Air Pollution from Forest and Agricultural Burning, p. 74

Butts, C. T.
Garment Conformation on a Mannequin Changes Flammable Characteristics, p. 145

Carhart, H. W.
The Transport of Hydrogen Chloride by Soot from Burning Polyvinyl Chloride, p. 42

Carter, W. H.
Flame Temperature, Heat Radiation and Heat Content Measured for All-Cotton and Cotton-Polyester Fabrics, p. 106

Chianta, M. A.
Thermal Analysis of Combustion of Fabric in Oxygen-Enriched Atmospheres, p. 309

Claus, W. D., Jr.
Heat Conduction in a Two-Layer System with Application to Heat Transfer to the Skin, p. 52

Collings, N.
The Ignition of Solid Materials in Oxygen by Electrical Sparks, p. 185

Darley, E. F.
Air Pollution from Forest and Agricultural Burning, p. 74

Day, M.
Carpet Flammability: An Oxygen Index Modification to the Pill Test, p. 165

DeMonbrun, J. R.
Study of a Molecular Sieve Fire, p. 113

Farthing, B. R.
Flame Temperature, Heat Radiation and Heat Content Measured for All-Cotton and Cotton-Polyester Fabrics, p. 106

Finley, E. L.
Flame Temperature, Heat Radiation and Heat Content Measured for All-Cotton and Cotton-Polyester Fabrics, p. 106
Garment Conformation on a Mannequin Changes Flammable Characteristics, p. 145

Fitt, P. W.
The Ignition of Solid Materials in Oxygen by Electrical Sparks, p. 185

Funt, J. M.
Application of a Flame-Spread Model to the Oxygen Index Test, p. 174

Gaskill, J. R.
Smoke Hazards and Their Measurement – A Researcher's Viewpoint, p. 279

Goss, J.
Air Pollution from Forest and Agricultural Burning, p. 74

Harpold, M. A.
Flammability Comparisons of Glass-Reinforced Unsaturated Polyester Moldings in Various Laboratory-Scale Tests, p. 2

Hazlett, R. N.
The Transport of Hydrogen Chloride by Soot from Burning Polyvinyl Chloride, p. 42

Hilado, C. J.
Fire Studies of Bedding Materials, p. 235

Holmes, C. A.
Flammability of Selected Wood Products Under Motor Vehicle Safety Standard, p. 156

Imhof, L. G.
The Effect of Structure on the Smoke Density Rating of Aryl Polyesters and Polyethers, p. 8

Johnson, J. E.
The Transport of Hydrogen Chloride by Soot from Burning Polyvinyl Chloride, p. 42

Kelley, C. S.
The Transfer of Radiation from a Flame to Its Fuel, p. 56

Komamiya, K.
Quenching Distance for a Combustible Solid in the Oxygen-Enriched Atmosphere, p. 82

Lewin, M.
The Infrared Determination of Levoglucosan Formed During the Pyrolysis of Cellulose, p. 92

Magill, J. H.
Application of a Flame-Spread Model to the Oxygen Index Test, p. 174

Miller, G.
Air Pollution from Forest and Agricultural Burning, p. 74

Nelson, G. L.
Oxygen Index of Liquids Technique and Applications, p. 210
Oxygen Index of Liquids: Halogen Compounds, p. 325

O'Neill, D.
The Ignition of Solid Materials in Oxygen by Electrical Sparks, p. 185

Pearce, E. M.
On the Oxygen Index of Nylon 6, p. 299

Reimschuessel, H. K.
On the Oxygen Index of Nylon 6, p. 299

AUTHOR INDEX – 1973

Atkins, K. E.
Flammability Comparisons of Glass-Reinforced Unsaturated Polyester Moldings in Various Laboratory-Scale Tests, p. 2

Baron, F. M.
A Corner Fire Test to Simulate Residential Fires, p. 99

Basch, A.
The Infrared Determination of Levoglucosan Formed During the Pyrolysis of Cellulose, p. 92

Air Pollution from Forest and Agricultural Burning, p. 74

Butts, C. T.
Garment Conformation on a Mannequin Changes Flammable Characteristics, p. 145

Carhart, H. W.
The Transport of Hydrogen Chloride by Soot from Burning Polyvinyl Chloride, p. 42

Carter, W. H.
Flame Temperature, Heat Radiation and Heat Content Measured for All-Cotton and Cotton-Polyester Fabrics, p. 106

Chianta, M. A.
Thermal Analysis of Combustion of Fabric in Oxygen-Enriched Atmospheres, p. 309

Claus, W. D., Jr.
Heat Conduction in a Two-Layer System with Application to Heat Transfer to the Skin, p. 52

Collings, N.
The Ignition of Solid Materials in Oxygen by Electrical Sparks, p. 185

Darley, E. F.
Air Pollution from Forest and Agricultural Burning, p. 74

Day, M.
Carpet Flammability: An Oxygen Index Modification to the Pill Test, p. 165

DeMonbrun, J. R.
Study of a Molecular Sieve Fire, p. 113

Farthing, B. R.
Flame Temperature, Heat Radiation and Heat Content Measured for All-Cotton and Cotton-Polyester Fabrics, p. 106

Finley, E. L.
Flame Temperature, Heat Radiation and Heat Content Measured for All-Cotton and Cotton-Polyester Fabrics, p. 106
Garment Conformation on a Mannequin Changes Flammable Characteristics, p. 145

Fitt, P. W.
The Ignition of Solid Materials in Oxygen by Electrical Sparks, p. 185

Funt, J. M.
Application of a Flame-Spread Model to the Oxygen Index Test, p. 174

Gaskill, J. R.
Smoke Hazards and Their Measurement – A Researcher's Viewpoint, p. 279

Goss, J.
Air Pollution from Forest and Agricultural Burning, p. 74

Harpold, M. A.
Flammability Comparisons of Glass-Reinforced Unsaturated Polyester Moldings in Various Laboratory-Scale Tests, p. 2

Hazlett, R. N.
The Transport of Hydrogen Chloride by Soot from Burning Polyvinyl Chloride, p. 42

Hilado, C. J.
Fire Studies of Bedding Materials, p. 235

Holmes, C. A.
Flammability of Selected Wood Products Under Motor Vehicle Safety Standard, p. 156

Imhof, L. G.
The Effect of Structure on the Smoke Density Rating of Aryl Polyesters and Polyethers, p. 8

Johnson, J. E.
The Transport of Hydrogen Chloride by Soot from Burning Polyvinyl Chloride, p. 42

Kelley, C. S.
The Transfer of Radiation from a Flame to Its Fuel, p. 56

Komamiya, K.
Quenching Distance for a Combustible Solid in the Oxygen-Enriched Atmosphere, p. 82

Lewin, M.
The Infrared Determination of Levoglucosan Formed During the Pyrolysis of Cellulose, p. 92

Magill, J. H.
Application of a Flame-Spread Model to the Oxygen Index Test, p. 174

Miller, G.
Air Pollution from Forest and Agricultural Burning, p. 74

Nelson, G. L.
Oxygen Index of Liquids Technique and Applications, p. 210
Oxygen Index of Liquids: Halogen Compounds, p. 325

O'Neill, D.
The Ignition of Solid Materials in Oxygen by Electrical Sparks, p. 185

Pearce, E. M.
On the Oxygen Index of Nylon 6, p. 299

Reimschuessel, H. K.
On the Oxygen Index of Nylon 6, p. 299

Shalaby, S. W.
On the Oxygen Index of Nylon 6, p. 299

Stone, J. P.
The Transport of Hydrogen Chloride by Soot from Burning Polyvinyl Chloride, p. 42

Schmitt, C. R.
Study of a Molecular Sieve Fire, p. 113

Stoll, A. M.
Thermal Analysis of Combustion of Fabric in Oxygen-Enriched Atmospheres, p. 309

Stueben, K. C.
The Effect of Structure on the Smoke Density Rating of Aryl Polyesters and Polyethers, p. 8

Sumi, K.
Combustion Products of Polymeric Materials Containing Nitrogen in Their Chemical Structure, p. 15
Combined Lethal Effect of Temperature, CO, CO_2 and O_2 of Simulated Fire Gases, p. 132

Tsuchiya, Y.
Combined Lethal Effect of Temperature, CO, CO_2 and O_2 of Simulated Fire Gases, p. 132
Combustion Products of Polymeric Materials Containing Nitrogen in Their Chemical Structure, p. 15

Thomm, E. C.
Effects of Carpet Variables on the Methenamine Pill Test, p. 197

Uehara, Y.
Smoke, CO and CO_2 from Cellulosic Materials Treated with DAP in a Fire Environment, p. 23

Webb, J. L.
Oxygen Index of Liquids Technique and Applications, p. 210
Oxygen Index of Liquids: Halogen Compounds, p. 325

Wiles, D. M.
Carpet Flammability: An Oxygen Index Modification to the Pill Test, p. 165

Williamson, R. B.
A Corner Fire Test to Simulate Residential Fires, p. 99

Yanai, E.
Smoke, CO and CO_2 from Cellulosic Materials Treated with DAP in a Fire Environment, p. 23

SUBJECT INDEX – 1973

Agricultural Burning
Air Pollution from Forest and Agricultural Burning, p. 74

Air Pollution
Air Pollution from Forest and Agricultural Burning, p. 74

Analysis
The Infrared Determination of Levoglucosan Formed During the Pyrolysis of Cellulose, p. 92

Applications
Oxygen Index of Liquids Technique and Applications, p. 210

Argon
Thermal Analysis of Combustion of Fabric in Oxygen-Enriched Atmospheres, p. 309

Aromatic Compounds
Oxygen Index of Liquids: Halogen Compounds, p. 325

Aryl Polyesters, Polyethers
The Effect of Structure on the Smoke Density Rating of Aryl Polyesters and Polyethers, p. 8

ASTM D2859-70T Test
Effects of Carpet Variables on the Methenamine Pill Test, p. 197

ATR
The Infrared Determination of Levoglucosan Formed During the Pyrolysis of Cellulose, p. 92

Backing Materials
Effects of Carpet Variables on the Methenamine Pill Test, p. 197

Bedding
Fire Studies of Bedding Materials, p. 235

Bisphenol A-Derived Systems
The Effect of Structure on the Smoke Density Rating of Aryl Polyesters and Polyethers, p. 8

Bromine
Oxygen Index of Liquids: Halogen Compounds, p. 325

Burn Rate
The Transfer of Radiation from a Flame to Its Fuel, p. 56

Burn-Resistance
Flammability of Selected Wood Products Under Motor Vehicle Safety Standard, p. 156

Burning Characteristics
Garment Conformation on a Mannequin Changes Flammable Characteristics, p. 145

Burning Rate
Carpet Flammability: An Oxygen Index Modification to the Pill Test, p. 165

Burning Velocity
Application of a Flame-Spread Model to the Oxygen Index Test, p. 174

Carpets
Carpet Flammability: An Oxygen Index Modification to the Pill Test, p. 165

Carpet Flammability
Effects of Carpet Variables on the Methenamine Pill Test, p. 197

Carpet Variables
Effects of Carpet Variables on the Methenamine Pill Test, p. 197

Ceiling Fires
A Corner Fire Test to Simulate Residential Fires, p. 99

Cellular Plastics (or Foam Plastics)
A Corner Fire Test to Simulate Residential Fires, p. 99

Cellulose
The Infrared Determination of Levoglucosan Formed During the Pyrolysis of Cellulose, p. 92

Cellulosic Materials
Smoke, CO and CO_2 from Cellulosic Materials Treated with DAP in a Fire Environment, p. 23

Chlorine
Oxygen Index of Liquids: Halogen Compounds, p. 325

Combustibility
A Corner Fire Test to Simulate Residential Fires, p. 99

Combustion Products
Combustion Products of Polymeric Materials Containing Nitrogen in Their Chemical Structure, p. 15

Conformation, Garment
Garment Conformation on a Mannequin Changes Flammable Characteristics, p. 145

Corner Fire Test
A Corner Fire Test to Simulate Residential Fires, p. 99

Cotton
Flame Temperature, Heat Radiation and Heat Content Measured for All-Cotton and Cotton-Polyester Fabrics, p. 106

Cotton
Garment Conformation on a Mannequin Changes Flammable Characteristics, p. 145

Crop Lands
Air Pollution from Forest and Agricultural Burning, p. 74

Diammonium Phosphate
Smoke, CO and CO_2 from Cellulosic Materials Treated with DAP in a Fire Environment, p. 23

Emission
The Transfer of Radiation from a Flame to Its Fuel, p. 56

End-Groups
On the Oxygen Index of Nylon 6, p. 299

Energy, Release of
The Ignition of Solid Materials in Oxygen by Electrical Sparks, p. 185

Fabric Combustion
Thermal Analysis of Combustion of Fabric in Oxygen-Enriched Atmospheres, p. 309

Fabrics
Fire Studies of Bedding Materials, p. 235

Film Thickness
Application of a Flame-Spread Model to the Oxygen Index Test, p. 174

Fire
Air Pollution from Forest and Agricultural Burning, p. 74

Fire Losses
Smoke Hazards and Their Measurement – A Researcher's Viewpoint, p. 279

Fire Retardancy
Oxygen Index of Liquids: Halogen Compounds, p. 325

Fire Retarding
Smoke, CO and CO_2 from Cellulosic Materials Treated with DAP in a Fire Environment, p. 23

Fire Study
Study of a Molecular Sieve Fire, p. 113

Fire Test
Flammability of Selected Wood Products Under Motor Vehicle Safety Standard, p. 156

Flame
The Transfer of Radiation from a Flame to Its Fuel, p. 56

Flame
Flame Temperature, Heat Radiation and Heat Content Measured for All-Cotton and Cotton-Polyester Fabrics, p. 106

Flame Impingement Test
Heat Conduction in a Two-Layer System with Application to Heat Transfer to the Skin, p. 52

Flame Resistance
Application of a Flame-Spread Model to the Oxygen Index Test, p. 174

Flame-Retardant Finishes
Garment Conformation on a Mannequin Changes Flammable Characteristics, p. 145

Flame Spread
Application of a Flame-Spread Model to the Oxygen Index Test, p. 174

Flame Temperature
Garment Conformation on a Mannequin Changes Flammable Characteristics, p. 145

Flammability
Flammability of Selected Wood Products Under Motor Vehicle Safety Standard, p. 156

Flammability
Carpet Flammability: An Oxygen Index Modification to the Pill Test, p. 165

Flammability
Oxygen Index of Liquids Technique and Applications, p. 210

Flammability
Fire Studies of Bedding Materials, p. 235

Flammability
On the Oxygen Index of Nylon 6, p. 299

Flammability of Polymers
Quenching Distance for a Combustible Solid in the Oxygen-Enriched Atmosphere, p. 82

Flammability Tests
Flammability Comparisons of Glass-Reinforced Unsaturated Polyester Moldings in Various Laboratory-Scale Tests, p. 2

Flammability Tests
Smoke, CO and CO_2 from Cellulosic Materials Treated with DAP in a Fire Environment, p. 23

Flammability Tests
Heat Conduction in a Two-Layer System with Application to Heat Transfer to the Skin, p. 52

Flammability Tests
Quenching Distance for a Combustible Solid in the Oxygen-Enriched Atmosphere, p. 82

Flashover
A Corner Fire Test to Simulate Residential Fires, p. 99

Fluids
Oxygen Index of Liquids Technique and Applications, p. 210

Fluorine
Oxygen Index of Liquids: Halogen Compounds, p. 325

Forests
Air Pollution from Forest and Agricultural Burning, p. 74

Fuel
The Transfer of Radiation from a Flame to Its Fuel, p. 56

Garment
Flame Temperature, Heat Radiation and Heat Content Measured for All-Cotton and Cotton-Polyester Fabrics, p. 106

Garment
Garment Conformation on a Mannequin Changes Flammable Characteristics, p. 145

Gases
Air Pollution from Forest and Agricultural Burning, p. 74

Halogen Compounds
Oxygen Index of Liquids: Halogen Compounds, p. 325

Halogenated Polyesters
Flammability Comparisons of Glass-Reinforced Unsaturated Polyester Moldings in Various Laboratory-Scale Tests, p. 2

Hazards, Smoke
Smoke Hazards and Their Measurement – A Researcher's Viewpoint, p. 279

Heat
Flame Temperature, Heat Radiation and Heat Content Measured for All-Cotton and Cotton-Polyester Fabrics, p. 106

HCl Adsorption on Soot
The Transport of Hydrogen Chloride by Soot from Burning Polyvinyl Chloride, p. 42

Heat Conduction
Heat Conduction in a Two-Layer System with Application to Heat Transfer to the Skin, p. 52

Heat Transfer
The Transfer of Radiation from a Flame to Its Fuel, p. 56

Heat Transfer
Thermal Analysis of Combustion of Fabric in Oxygen-Enriched Atmospheres, p. 309

Helium
Thermal Analysis of Combustion of Fabric in Oxygen-Enriched Atmospheres, p. 309

Hydrated Alumina
Flammability Comparisons of Glass-Reinforced Unsaturated Polyester Moldings in Various Laboratory-Scale Tests, p. 2

Hydraulic Fluid
Study of a Molecular Sieve Fire, p. 113

Hydrocarbon Flame
The Transfer of Radiation from a Flame to Its Fuel, p. 56

Hydrogen Cyanide
Combustion Products of Polymeric Materials Containing Nitrogen in Their Chemical Structure, p. 15

Hydroquinone Segments
The Effect of Structure on the Smoke Density Rating of Aryl Polyesters and Polyethers, p. 8

Ignition
The Ignition of Solid Materials in Oxygen by Electrical Sparks, p. 185

Ignition, Ease of
Carpet Flammability: An Oxygen Index Modification to the Pill Test, p. 165

Infrared
The Infrared Determination of Levoglucosan Formed During the Pyrolysis of Cellulose, p. 92

Iodine
Oxygen Index of Liquids: Halogen Compounds, p. 325

Latexes
Effects of Carpet Variables on the Methenamine Pill Test, p. 197

Levoglucosan
The Infrared Determination of Levoglucosan Formed During the Pyrolysis of Cellulose, p. 92

Limiting Oxygen Index
Flammability Comparisons of Glass-Reinforced Unsaturated Polyester Moldings in Various Laboratory-Scale Tests, p. 2

Liquids
Oxygen Index of Liquids Technique and Applications, p. 210

Mannequin
Flame Temperature, Heat Radiation and Heat Content Measured for All-Cotton and Cotton-Polyester Fabrics, p. 106

Mannequin
Garment Conformation on a Mannequin Changes Flammable Characteristics, p. 145

Mattresses
Fire Studies of Bedding Materials, p. 235

Measurement, Smoke Hazards
Smoke Hazards and Their Measurement – A Researcher's Viewpoint, p. 279

Melt Flow
On the Oxygen Index of Nylon 6, p. 299

Methenamine Pill
Carpet Flammability: An Oxygen Index Modification to the Pill Test, p. 165

Methenamine Pill Test
Effects of Carpet Variables on the Methenamine Pill Test, p. 197

Model Building Codes
A Corner Fire Test to Simulate Residential Fires, p. 99

Molecular Sieves
Study of a Molecular Sieve Fire, p. 113

Molecular Weight
On the Oxygen Index of Nylon 6, p. 299

Motor Vehicles
Flammability of Selected Wood Products Under Motor Vehicle Safety Standard, p. 156

Nitrogen
Thermal Analysis of Combustion of Fabric in Oxygen-Enriched Atmospheres, p. 309

Nitrogen Containing Polymers
Combustion Products of Polymeric Materials Containing Nitrogen in Their Chemical Structure, p. 15

Nylon 6
On the Oxygen Index of Nylon 6, p. 299

Oxygen-Enriched Atmospheres
Quenching Distance for a Combustible Solid in the Oxygen-Enriched Atmosphere, p. 82

Oxygen-Enriched Atmospheres
The Ignition of Solid Materials in Oxygen by Electrical Sparks, p. 185

Oxygen-Enriched Atmospheres
Thermal Analysis of Combustion of Fabric in Oxygen-Enriched Atmospheres, p. 309

Oxygen Index
Carpet Flammability: An Oxygen Index Modification to the Pill Test, p. 165

Oxygen Index
Application of a Flame-Spread Model to the Oxygen Index Test, p. 174

Oxygen Index
Oxygen Index of Liquids Technique and Applications, p. 210

Oxygen Index
On the Oxygen Index of Nylon 6, p. 299

Oxygen Index
Oxygen Index of Liquids: Halogen Compounds, p. 325

Particulates
Air Pollution from Forest and Agricultural Burning, p. 74

Pillows
Fire Studies of Bedding Materials, p. 235

Plastics
Oxygen Index of Liquids Technique and Applications, p. 210

Plastics in Fire
A Corner Fire Test to Simulate Residential Fires, p. 99

Polyester
Flame Temperature, Heat Radiation and Heat Content Measured for All-Cotton and Cotton-Polyester Fabrics, p. 106

Polyester
Garment Conformation on a Mannequin Changes Flammable Characteristics, p. 145

Polyester Moldings
Flammability Comparisons of Glass-Reinforced Unsaturated Polyester Moldings in Various Laboratory-Scale Tests, p. 2

Polymer Flammability
Oxygen Index of Liquids: Halogen Compounds, p. 325

Polymers
Oxygen Index of Liquids Technique and Applications, p. 210

Polystyrene Films
Application of a Flame-Spread Model to the Oxygen Index Test, p. 174

Polyurethane Foam
A Corner Fire Test to Simulate Residential Fires, p. 99

Pulse Problem
Heat Conduction in a Two-Layer System with Application to Heat Transfer to the Skin, p. 52

PVC Combustion
The Transport of Hydrogen Chloride by Soot from Burning Polyvinyl Chloride, p. 42

Pyrolysis
The Infrared Determination of Levoglucosan Formed During the Pyrolysis of Cellulose, p. 92

Quenching Distance
Quenching Distance for a Combustible Solid in the Oxygen-Enriched Atmosphere, p. 82

Radiation
The Transfer of Radiation from a Flame to Its Fuel, p. 56

Radiation
Flame Temperature, Heat Radiation and Heat Content Measured for All-Cotton and Cotton-Polyester Fabrics, p. 106

Radiation Transfer
The Transfer of Radiation from a Flame to Its Fuel, p. 56

Realistic Fire Tests
A Corner Fire Test to Simulate Residential Fires, p. 99

Residential Fires
A Corner Fire Test to Simulate Residential Fires, p. 99

Safety Standard
Flammability of Selected Wood Products Under Motor Vehicle Safety Standard, p. 156

Sheets
Fire Studies of Bedding Materials, p. 235

Smoke
Smoke, CO and CO_2 from Cellulosic Materials Treated with DAP in a Fire Environment, p. 23

Smoke
Fire Studies of Bedding Materials, p. 235

Smoke Density
The Effect of Structure on the Smoke Density Rating of Aryl Polyesters and Polyethers, p. 8

Smoke Opacity
Smoke Hazards and Their Measurement – A Researcher's Viewpoint, p. 279

Soot Aerosol
The Transport of Hydrogen Chloride by Soot from Burning Polyvinyl Chloride, p. 42

Sparks, Electrical
The Ignition of Solid Materials in Oxygen by Electrical Sparks, p. 185

Surface Burning Characteristic
A Corner Fire Test to Simulate Residential Fires, p. 99

Synergism
Combined Lethal Effect of Temperature, CO, CO_2, and O_2 of Simulated Fire Gases, p. 132

Synergism
Smoke Hazards and Their Measurement – A Researcher's Viewpoint, p. 279

Test Methods, Smoke Hazards
Smoke Hazards and Their Measurement – A Researcher's Viewpoint, p. 279

Textiles, Thermal Protection
Heat Conduction in a Two-Layer System with Application to Heat Transfer to the Skin, p. 52

Theory
Oxygen Index of Liquids Technique and Applications, p. 210

Thermal Problem
Thermal Analysis of Combustion of Fabric in Oxygen-Enriched Atmospheres, p. 309

Toxic Gases
Smoke, CO and CO_2 from Cellulosic Materials Treated with DAP in a Fire Environment, p. 23

Toxic Gases
Combined Lethal Effect of Temperature, CO, CO_2, and O_2 of Simulated Fire Gases, p. 132

Toxicity
The Transport of Hydrogen Chloride by Soot from Burning Polyvinyl Chloride, p. 42

Toxicity, Smoke
Smoke Hazards and Their Measurement – A Researcher's Viewpoint, p. 279

Triarylphosphate
Study of a Molecular Sieve Fire, p. 113

Tunnel Test ASTM E 84
A Corner Fire Test to Simulate Residential Fires, p. 99

Wood Products
Flammability of Selected Wood Products Under Motor Vehicle Safety Standard, p. 156
